

## **China Map Work**

### **1. Draw in, color, and label the following physical features: (pg. 161)**

*Use the textbook map to locate the relative location of features and properly label them on the map. Remember that China is not an island, and there is land surrounding it (see map in textbook)*

\_\_\_\_\_ Huang He/Yellow River

\_\_\_\_\_ Himalaya Mts.

\_\_\_\_\_ Chang Jiang/Yangzi River

\_\_\_\_\_ Asia

\_\_\_\_\_ Xi River

\_\_\_\_\_ Greater Khingan Mountain Range

\_\_\_\_\_ Arable land

\_\_\_\_\_ Qinling Shandi Mts.

\_\_\_\_\_ Gobi Desert

\_\_\_\_\_ Taklimakan Desert

\_\_\_\_\_ Plateau of Tibet

\_\_\_\_\_ Pacific Ocean

### **2. Additional Info:**

a. Rivers in blue

b. Additional civilizations: river, fertile areas

### **3. Make sure your map contains all five map essentials:**

Compass:

Title:

Scale:

Legend:

Map Locator: (this will be the combination of your small and large maps)

### **4. Don't do until later:**

\_\_\_\_\_ Great Wall of China

\_\_\_\_\_ Silk Road
